## DETAILED ACTION

### ***Allowable Subject Matter***

Claims 43-140 are allowed.

The following is an examiner's statement of reasons for allowance: The amendments to the claims overcome the prior rejections under 35 USC 101, essentially for the reasons set forth by applicant. While the claims previously were directed to a mathematical model, and thus non-statutory subject matter, the claims as amended recite a method and apparatus for evaluating and analyzing test results. While mathematical models and algorithms are not themselves patentable, it is clear from caselaw that methods and apparatuses that use mathematical algorithms to arrive at a useful, tangible and concrete result are patentable. *Diamond v Diehr* and *State Street Bank* in particular. Because the invention as currently claimed has a useful, tangible and concrete result, and because the prior art does not disclose or suggest the invention, claims 43-140 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
